

ASSEMBLY INSTRUCTIONS - UMBRELLA BASE

MATERIAL LIST

- A -(1) Base
- B -(1) Tube
- C -(1) Knob
- D -(1) Flat Head Screw
- E -(1) 7/32" Hex Allen Wrench (Not Shown)
- F -(1) Self Tapping Screw

TOOL REQUIRED

Adjustable Wrench

STEP 1 Verify that you have received all the parts in the Material List.

STEP 2 Turn Base (A) on edge and align Tube (B) with hole in center of plate. The countersunk side of hole on the base must be on opposite side from the tube.

STEP 3 Attach Base to Tube with Screw (D) using Allen wrench (E). Screw will fasten into threaded insert in Tube.

STEP 4 Place Umbrella Base on a flat and level surface. Dense and rocky soil conditions should be avoided if used on a ground surface.

STEP 5 Insert Self Tapping Screw (F) into nut and screw in fully using an adjustable wrench. This will clear the internal threads of paint. Remove the self tapping screw and discard.

STEP 6 Place umbrella pole into Tube (B) and install Knob (C) to hold umbrella in place. Your umbrella and base are now properly assembled. Enjoy.
